

HIGH QUALITY KRAFT PAPER PACKAGING

Corrugated Box | Paper Tube and Core

Angle Board & Edge Protector | Paper Courier Bag

“ ”

***good packaging protects your
product, great packaging protects
your brand***

The background of the slide features a large, light-colored globe centered in the upper half. In the foreground, there are several stacks of brown cardboard boxes of various sizes, some with white packing tape. The overall color palette is warm, with shades of beige, cream, and light brown, accented by a blue triangle in the top right corner.

ABOUT ROLTONN

Established in 2016, Roltonn Packaging Solutions is Gujarat's leading manufacturer of Corrugated Boxes, Angle Boards / Edge Protectors, Core Tubes & Core, and Paper Courier Bags.

Roltonn believes in delivering value to its clients and is committed in continually reinvesting in its infrastructure and people. Roltonn now has two manufacturing units strategically located at Hojiwala Industrial Estate in Surat city.

WELCOME TO **OUR COMPANY**

Spearheaded by the young and dynamic duo, Roltonn is backed by diversified business houses that bring along various capabilities in finance, procurement, operations, management and sales. The company is steadily marching forward with significant milestones every year since its inception.

With Quality & Customer Service at its core, Roltonn takes every opportunity to do its bit in nature conservation and social welfare.

LET'S BUILD A **STRATEGIC PARTNERSHIP** **FOR YOUR COMPANY**

2.9M MT

Paper Converted

Packaging today has moved beyond just storage & transport. Having understood this well, we strive to continually innovate & elevate the standard of our products and optimise resources to pass every benefit to our client. We consider ourselves an integral part of our client's business ecosystem and do our best to help them meet their objectives.

OUR VISION MISSION

To become the leading packaging solutions provider with a core focus on providing innovation in packaging.

Multiply by establishing automated and integrated manufacturing setups in each product category.

67%

YoY Avg. Growth

Through its inception, Roltonn has pushed all its stakeholders to ensure a healthy year on year growth and strives to maintain or surpass the same in coming years.

[LEARN MORE](#)

Timeline

Started with semi-automatic
line of corrugated box
machine in 8000 sqft

Added another line of
corrugated box manufacturing
with automatic converting line

Commissioned core pipe
making plant with semi-
automatic manufacturing line

Erected a new premise of
16000 sqft with fully-
automatic angle board plant

Expanded to another premise
of 16000 sqft taking the whole
area to 32000 sqft

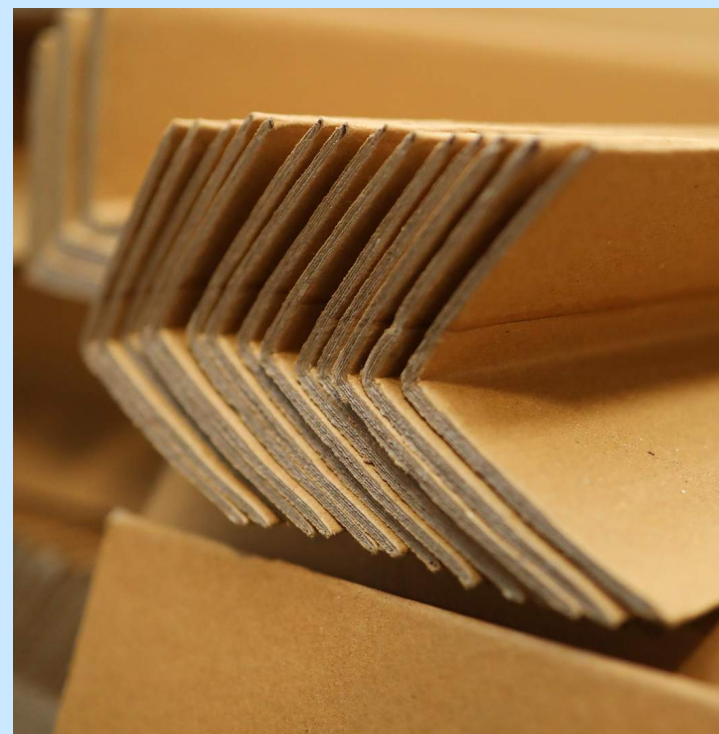

Diversified the product
portfolio by adding paper bag
manufacturing unit

BEST INFRASTRUCTURE & **EXPERIENCED TEAM**

Roltonn believes in continually reinvesting in building automated and efficient manufacturing lines dedicated to its product portfolio. Simultaneously training & upskilling its existing workforce, appointing more experienced team members and retaining existing staff is always on the agenda.

additional capacity to
immediately add more output

OUR PRODUCTS

Corrugated Box

We manufacture 3-ply and 5-ply corrugated boxes in various types and sizes. We also offer printing and product development as per specific needs.

Paper Tube & Core

Our paper tubes & cores are known for their strength, performance & reusability. They are available in various thicknesses, diameters & lengths.

Paper Courier Bag

We manufacture high-quality, cost-effective printed paper courier bags and covers especially for e-commerce.

Angle Board & Edge Protector

We're one of few paper converters manufacturing high-quality angle boards and edge protectors in India and are well known for its performance.

CORRUGATED BOX

3 Ply & 5 Ply Corrugation

Our boxes are made from corrugated sheets manufactured using 100% recycled kraft paper and quality adhesives on automatic machines, ensuring consistent fluting of various types in required strength and durability. The same is varied depending on the type and size of box to achieve optimum result required.

CORRUGATION BOX PLANT & MACHINERY

Machineries	Units
Corrugator Machine (62") & (72")	1 each
Hydraulic Reel Stand & Seet Cutter	2 each
Pasting Machine	2
Flatbed Die Punch (80x100)	1
Creasing & Sloting Machine	1 each
Rotary Slotter With Creasing, Slotting And 2 Colour Online Printing	1
Pinning Machines	3

PAPER TUBE & CORE

Varied Size & Strength

We manufacture a wide range of Paper Tubes and Cores that cater to various industries including, Paper, Films, Cables and Wires, Flexible Packaging, BOPP, PVC and Speciality Tapes, and Photographic Paper & Films, among others.

Tubes from an internal diameter of 25mm up to 610 mm in invariable lengths and thicknesses of up to 25mm can be made on fully automated improved machines.

PAPER TUBE & CORE

Varied Size & Strength

Available Specifications

Specification	Range
Internal Diameter	1 inch to 22 inches
Core Thickness	2 mm to 25 mm
Core Length	up to 8,000 mm
Radial Compression Strength up to 1,000 kgf / 100 mm Core Length	
Inner and Outer Surface Plain Kraft, White, up to 8 colour printing, Grinded and Wax Coated, Polycoated, Embossed, Knurled among others.	

PAPER TUBE & CORE PLANT & MACHINERY

Machineries	Units
32 Layer Reel Stand	1
Heavy Duty Core Pipe Winding Machine (Capable Of Making Cores Upto 18 Inch Dia)	1
Re-Cutting Machine	1
Heavy Duty 6 Tons Heating Chamber	2

PAPER COURIER BAG

Varied Size & Strength

We manufacture high strength paper courier bags using state of the art automated machinery setup which is capable of printing upto three colors along with water repellent coating and heat seal treatment all with a single online command.

PAPER COURIER BAG

Varied Size & Strength

USP of our paper courier bags

- ✓ High strength edge sealing
- ✓ Online hot melt glue application
- ✓ Virgin quality paper with high tear resistance
- ✓ Automised process from printing to sealing with zero manual intervention which gives standard quality
- ✓ High-strength edge sealing which provides high tear resistance.
- ✓ Capable of manufacturing sizes as small as 5x5" to as large as 25x25".
